

Account of the clashes between ISIS and Musab Bin Umayr Brigade (of Ahrar Al Sham) In Maskanah.
A translation of the events according to ISIS leader in Maskanah, Abu Dujana Al Kuwaiti.

"In the name of ALLAH. Salam Allium Warahmit ALLAH Wabarakatuh. We delayed in providing important details about the events in maskanah Between ISIS and Musab Ibn Umayr until transgressions in distortions, lies, and slander were made. I read some of what was written regarding maskanah and the campaign of distortions and lies against ISIS and i found everyone was writing for the benifit of their group.

Allah almighty says, "and if you speak, then be fair", "Let not the enmity or hatred of others make you avoid justice". So why do you not recall the events as they are without mentioning the pros and cons of a group. Before I mention the details of the what occurred in Maskanah, i will respond to 3 lies that ISIS is accused of. 1. We declare Ahrar Al Sham apostates 2. We were the ones who began the fighting 3. We dont accept the sharia / And i will deliver a message.

I swear by ALLAH the almighty, and this i will be asked about on the day of Judgement, that what was released on the voice recording is not my manhaj alone, infact it is the consensus of ISIS about the event. By him who raised the sky without pillars (ALLAH), we (ISIS) were not going to post this and provide these details on here (twitter) except to clarify the distortions that are aimed at us, and there is power but from ALLAH.

1. The first lie - about Takfeer

This is reported and spread alot by the hypocrites and none but the ignorant fools blind of sight and insight believe this, and i will say in short: By ALLAH we dont make takfeer on you, not your soldiers or your leaders. Infact we greet you with 'Salam' and we pray behind you and we eat your slaughter and we marry from your women and we dont practice taqiyah (deception) with you, God forbid. And this we say on twitter and in our private and public gatherings and in the minbar's (in Mosques), and we teach it our mujahideen in our training camps while on the other hand other leaders teach their soldiers that we are Khawarij! And this i have evidence and proof of and eyewitnesses, for example and this is not the only example, 3 friday sermons in 'Al Suq' mosque in maskanah, the leader of Ahrar in the eastern section (Abu Jaber) and he is the leader of Musab Ibn Umayr, he gave sermons on the khawarij and ISIS. Furthemore when i was detained by the criminals of this group, one of them wanted to fire at me and another member prevented him and his exact words were "Abu Jaber says (they are) Khawarij and extremists and killing them is permissible", these are fatwas the smallest mujahid in Maskanah knows about. By ALLAH we dont make takfeer on them and the liars may lie as they please, and the fabricators may fabricate and ALLAH protects the believers and he is our protector and suffices us.

2. The second lie (The fighting)

The fighting and spilling of the mujahideen's blood began on the second morning from the dispute, it occured at an ambush set up for the brothers as they were entering Maskanah. The ambush was set up by the (security) of Musab Bin Umayr as they (ISIS members) were returning from Deir Hafer 15 minutes after i had agreed to have a shari'i meeting with Abu Hussein AL Salafi and ABu Umar AL Shar3i. In the Ambush, Abu Ahmed Taha, Abu Yusuf, Abu Jawayriyah were killed and Abu Asem Al Urdani (jordanian), Abu Zuhayr and Abu Al Harith AL Madani were wounded and all of them were from ISIS. From Musab Ibn Umayr brigade, Abu Ahmed Al Hadi was killed, prior to this ambush not a single drop of blood was shed even though Musab IBn Umayr members tried to kill an ISIS member the first night of the dispute, when they fired at the car of Abu Hadi and Abu Al Bara Al Chechani as they were in the market after they escaped being detained by them. Prior to the ambush not a single members from both sides was killed and we have witnesses on this matter.
